EXPERIENCES

Roblox - Growth

Product Design Intern
May - Aug 2023

Owened long-term vision for high-visibility features with buy-in across **four teams** to promote interactive discovery. Designs presented to VPs and directors. Led design sprints to ideate with **9+ designers and stakeholders** and conducted **usability testing** for community feedback.

Worked with engineering and product to design and launch **3 sprints** of features for an internal experimentation platform used by **2000+ employees**.

Roblox - Creator Success

Product Design Intern
May - Aug 2022

Drove the end-to-end mobile redesign of Talent Hub, a job board used by over **300k UGC creators**, which led to an **80% increase in users**. Worked closely with cross-functional partners to ship the product, strategized with data science to **establish metrics** to track success.

Audited pain points and added **10+ components** to the mobile design system.

Opal

Product Designer
May 2021 - Feb 2022

Founding designer, established the brand identity and design system for NFT startup. Collaborated with 4 designers on the platform for MVP launch. Led the **end-to-end prototype** of the platform's profile page and wallet functionality.

BWxD

Brand Designer
Aug 2022 - Apr 2023

Established the brand identity across the web, print materials, and merchandise for Brown and RISD's annual professional design conference with over **20 industry speakers** to promote ethical design. Worked closely with developers to build out the event website and registration flow.

LEADERSHIP

Hack@Brown

Design Lead
Aug 2021 - May 2023

Directed the visual identity of Brown's official hackathon and taught 3D modeling and animation to a team of six designers. Redesigned the website and sign-up flow, reaching over **1000+ users** and facilitating **500+ signups**.

Full Stack at Brown

Design Director
Aug 2021 - May 2023

Led the creative direction of a club that builds applications used by thousands of students and faculty at Brown University with **200+ members**. Created the first dedicated branch of **10 designers** and organized applications, onboarding, and designer-client pipelines.
